## Cheyenne Housing Authority MAINTENANCE CHARGE SCHEDULE

### **PRORATION EXAMPLES:**

#### Carpet or Sheet Vinyl Flooring:

In January 2000 new carpeting was installed in a unit. The life expectancy of the carpet is 10 years or 120 months, therefore CHA would plan to replace the carpet in that unit in December 2010. In January 2003 a family moved into the unit and then moved out 24 months later in December 2005. At move-out, the entire carpet had to be replaced - 5 years or 60 months earlier than planned due to Tenant damage. Therefore, the family would be charged 50% of the cost to install new carpeting. Note that if the carpeting had been in service for 10 or more years at the time the family moved-out, none of the cost of replacing the carpet would be charged to the family.

#### Paint:

Paint is prorated in the same manner as described in the Carpet or Sheet vinyl example above.
